

Nema Cabinet

Systèmes

CableTalk
Systems Inc.

Product Features

Finish

- Durable black textured powder paint finish

Structure

- Frame constructed of rugged 13GA steel
- To maintain dust free environment, cabinet comes standard with:
 - Double return flange with seamless gasket to provide seal with doors
 - 4 point latch securely closes and locks door to frame
 - The bottom of the cabinet is sealed by using one of two items:
 - flat floor panel attaches to mounting plates and comes standard
 - sealed floor panel (box shaped) attaches to mounting plates and rests on floor. This panel allows for cable access & is sold separately.
- Side panels bolted in 4 places
- Cabinet assembly will include a solid front and rear door, one solid side panel and one side panel with cutout for air condition unit (available in 4000, 8000, 12000 BTU). Air condition unit will be factory installed.
- If no air condition unit is required, two solid side panels can be supplied.

Options

NEMA cabinet frames support the CableTalk products:

- Mounting angles – tapped or cage nut style
- Cable management systems
- Power solutions
- Shelves
