# FLEX-TOP
CABINET TOP

Note: All of our cabinets are fully customizable. If desired options are not listed, speak with your CableTalk distribution partner.

Product Features

Flexible, Scaleable, Innovative, Retrofitable
The CableTalk® Flex-Top is an innovative solution to the various configurations for the top of a cabinet. CableTalk has created a "standard" cabinet design which can be ordered in more than 64 different top configurations as no-cost added options. Simply choose the front, center and rear feature when ordering.

1. Solid Cover (CTTP-TCP-24-S)
The solid cover has no cable access or trough capabilities.

2. Cover with Fan & Cabling Knock Outs (CTTP-TCP-24-4FA)
Knock out the punched holes for either fan or cabling access. (This is the standard configuration)

3. Trough Top with Cabling Knock Outs (CTC-24X9-2-CUT-B)
This top has a hinged top plus knockouts for cabling.

4. Dual Cutout Center Cover (CTTP-CDC-2442-B)
Cutouts for two solid closeout panels.
(This is the standard configuration)

5. Perforated Center Cover (CTTP-CP-2442)
Fully perforated cover for maximum cabinet ventilation.

Cutouts for two 3 fan ventilation assemblies.
(Fan assemblies not part of the no cost options)

Covers 1 thru 5 are "standard" no-cost added options. All cabinets include the front, center and rear top option of your choosing. (All part numbers are shown for a 24"x42" cabinet). For 30" wide, replace 24" with 30".

1-3 Front & Rear Options
These options can be used in either the front or rear position on the top of the cabinet.

4-5 Center Options
These options can be used in the center position. (Contact our sales department for other Flex-Top options)
